In a world where water is less  
And growing plants is a mess  
This problem I will address  
What am I ? Can you guess?

Super Seeds use very less water to grow plants. These seeds can help you grow plants in your home without wasting any water.

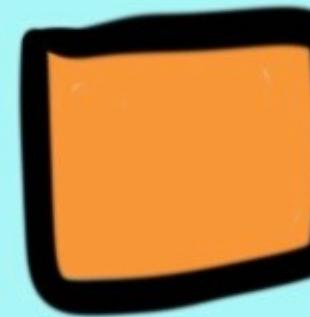

This nose pin  
can help you  
breathe clean  
air, since  
there is a lot  
of air  
pollution in  
Karachi

*Press me if you want me to sleep.*

*I will tell you how hot or cold today is.*

*I will tell you how much water you need to drink today!*

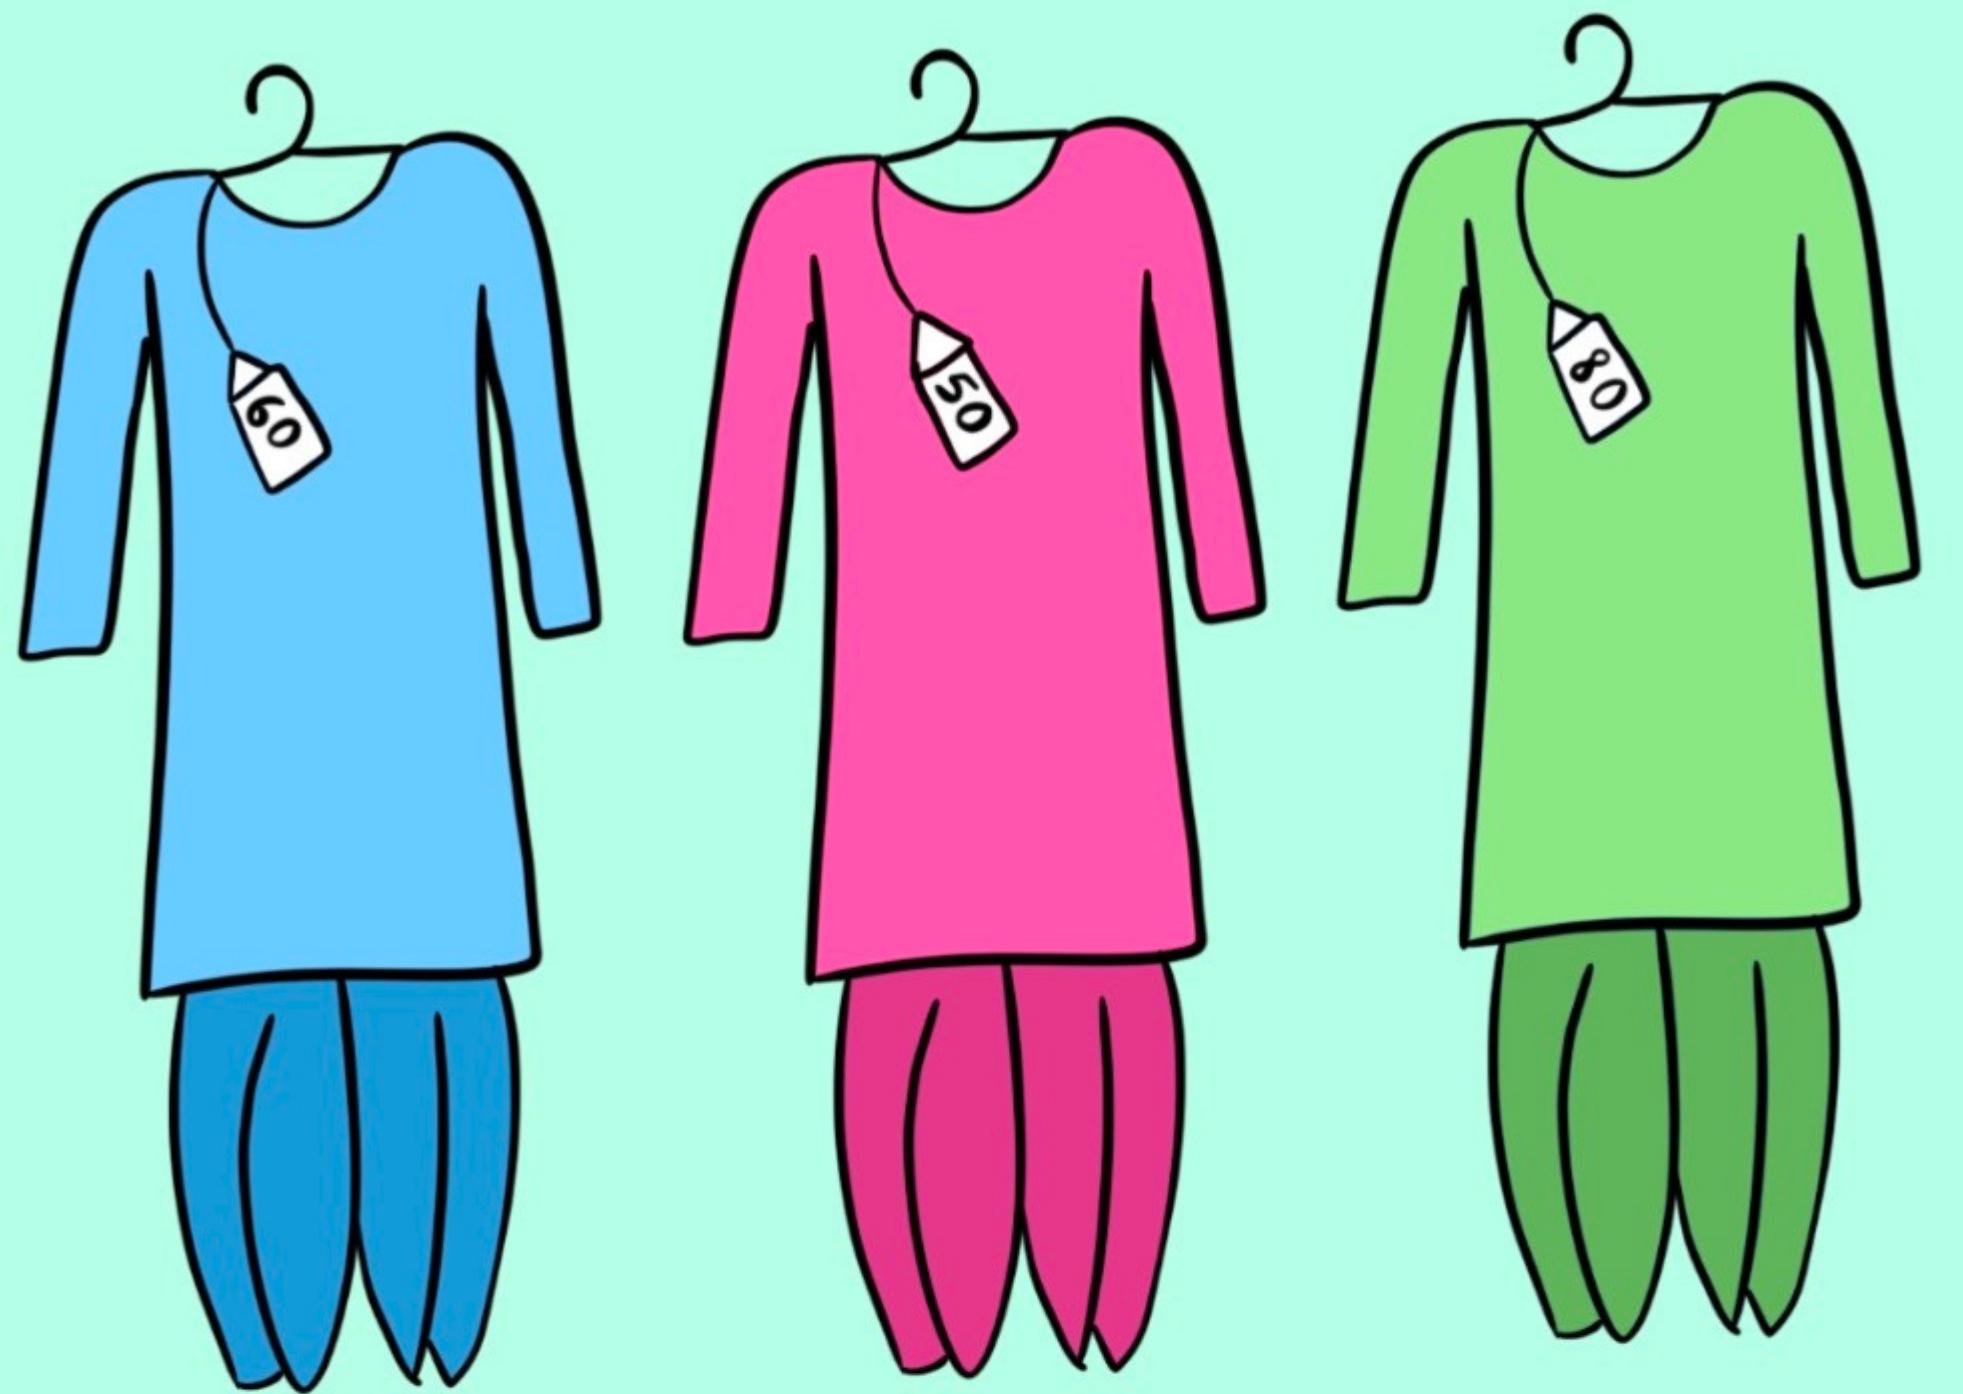

*Do you want to know how much water is in your body right now?*

Biohome is a machine that lets you make homemade fertilizer for your plants.

chug chug chug  
what is that sound?  
it is your household waste  
inside me, making rounds!  
getting mixed with soil.  
Is it ready yet?  
open the drawer,  
and see for yourself!

Did you know that 17,000,000 million tons on clothes are wasted each year.

To stop that from happening, the clothing card was introduced which can help you buy the clothes that you need and stops you from buying extra clothes so you can help save the planet.

You are only allowed to spend 200 points every month so spend it wisely.

Sara went out to shop for her Eid clothes and has 200 points in her clothing card. Can you help her with her shopping?

How many pink kameez shalwar can sara buy if she uses all the points in her card?

What would be the total bill if sara bought a blue dress and a green dress?

How much do 4 yellow dupattas cost?

What would be the total bill if sara bought 2 green dresses and 1 yellow dupatta?

How many yellow dupattas can sara buy with 200 points?

Can sara buy 1 pink kameez shalwar, 1 blue dress, 1 green dress and 1 yellow dupatta with 200 points?
